

I find Sinclair's use of airways free of charge offensive. They are to serve our people with balanced information, trusting our citizens to be able to use the information to make informed decisions. I object to the airing of "Stolen Honor." It should be balanced with "Going Up River."

This biased, so called "news," is detrimental to our democracy. Please stop the elite from, through their wealth, abusing to our nation's democracy! If the protection of freedom of Speech protects these people and/or corporations, then they must be made to provide equal time to opposing views.
